

TRANSPLANT CREATIONS

Road to Cure by Bone Marrow or Peripheral Blood Progenitor Cell Transplantation!

We support patients to optimize their disease outcome.

Malignant:

- Leukemia
- Stage II-III breast cancer
- Multiple myeloma
- Lymphoma, and others

Benign: Just diagnosed with hematopoietic, genetic or immune disorder, contact us!

We offer patients world wide the opportunity for exclusive advice (first and second opinions) about suitability of their disease for treatment by hematopoietic cell transplantation as part of therapy.

You take the initiative to call (+31-6-12433616) or send an email to info@transplantcreations.org

Transplant Creations expects your call!

We can do more if you take initiative!
